Carroll County
Electric Aggregation Program

mc² Electric Supply Price

***Non-Green Option*:**

6.95 **cents per kWh**

A fixed electric supply price measured in cents per kWh.

100% Green Option:

7.35 **cents per kWh**

A fixed electricity supply price option backed by 100% Green-E certified RECs.

The program has a 20-month term and will start with the April 2024 ComEd meter read and continue through your December 2025 ComEd meter read.

Carroll County is pleased to inform you that we will be resuming an electric municipal aggregation program.

A Chicago based company, MC Squared Energy Services, LLC (mc²), was selected to serve the eligible residents and small business customers with electric supply services for a 20-month term beginning with the April 2024 ComEd meter read cycle. In addition, Carroll County will provide eligible residents the opportunity to support renewable energy resources with Green-E certified Renewable Energy Certificates (RECs). mc² will purchase Green-E certified RECs to cover 100% of your electricity supply requirements for an additional 0.4 cents per kWh. **The rate increases from 6.95 to 7.35 cents per kWh**. You must opt in to this option by either calling toll-free (888) 423-1397 or emailing ElectricAggregation@mc2energyservices.com.

What is electric aggregation?

On August 10, 2009, Governor Quinn signed into law Public Act 096-0176, which allows municipalities to arrange for the provision of electric to residential and small commercial retail customers by alternative electric suppliers (i.e. suppliers other than ComEd). Under this law, the municipality may seek bids for the provision of aggregate electric supply services to their residents and small businesses.

Who is eligible to participate?

Eligible residential requirements: All residents located in Carroll County as indicated by ComEd, are eligible to participate.

Eligible business requirements: All small businesses located in Carroll County as indicated by ComEd, with a ComEd designated annual usage of 15,000 kWh or less, are eligible to participate.

What will change on my electric bill if I'm enrolled?

You will continue to receive a single bill from ComEd each month. "MC Squared Energy Services" will be designated as your supplier in the "Supply" section of your ComEd bill. ComEd will continue to bill you for distribution services and taxes. Payments should still be sent to ComEd at the address provided. There is no impact to ComEd services such as Budget Billing, Peak Time Savings and/or financial assistance.

Will I receive notification of the supplier change?

ComEd will always mail a confirmation letter indicating a service change.

where energy comes from

Who is MC Squared Energy Services?
MC Squared Energy Services, LLC (mc²) is a certified, retail electric-service provider headquartered in Chicago. MC Squared Energy Services, LLC is a wholly owned subsidiary of Wolverine Holdings. For more information on the company, visit our website at www.mc2energyservices.com.

Summary of Benefits:

- Electric supply price is fixed for the duration of the term.
- Residents and small businesses may opt out at any time with no termination fees.
- Providing eligible residents the opportunity to support renewable energy resources with the option to back 100% of their electric supply with Green-E Energy certified RECs.

Green-e Energy CERTIFIED

The mc² *Green Option Price Plan* is Green-e Energy certified and meets the environmental and consumer protection standards established by the non-profit Center for Resource Solutions. Learn more at www.green-e.org.

For more information about Renewable Energy Certificates (RECs), visit www.green-e.org/rec. The Product Content Label (PCL) below provides a complete list of the resources included in the mc² green programs.

Is there an early termination fee?
There is no termination fee; you are only obligated to pay for services rendered under the contract until your service is terminated.

Will my electric service be disrupted when I switch?
No, there will be no disruption in service. You will continue to receive the same electric service through the same transmission and distribution system currently operated by ComEd. The switch to mc² is seamless.

What happens at the end of the program term?
At the end of the term, if the County decides to end the program, all accounts served by mc² will be returned to ComEd service.
